

## CAPITAL PROJECTS PUBLIC HEARING

The Metropolitan Transportation Authority, on behalf of MTA New York City Transit and its subsidiaries; MTA Long Island Rail Road; MTA Metro-North Railroad; MTA Construction and Development; and MTA Bus Company (collectively "MTA"), will hold a public hearing to solicit comments on MTA's federal grant proposals for Federal Fiscal Year 2023. The hearing will be held in a hybrid format with options to participate in-person, as well as virtually via Zoom's online platform and conference call feature, with a livestream available on the MTA 2023 Capital Projects hearing website.

The MTA receives federal funds pursuant to the Federal Transit Administration (FTA) of the U.S. Department of Transportation Section 5307, Sections 5309, 5337 and 5339 of Title 49, United States Code, 5300 et seq. (the Code), Bipartisan Infrastructure Law (surface transportation act and other federal appropriations). The Governor of the State of New York, local officials, and publicly owned operators of mass transportation services have designated the MTA to receive such grants.

The requested funds are for categories of capital projects listed below and more fully described in the MTA Program of Projects. MTA's Program of Projects is available for review at <https://new.mta.info/transparency/public-hearings> or by calling the number shown below. The MTA solicits and encourages the comments of private transportation providers. Capital improvements under this Program generally take place within the MTA network or on State or city-owned property. Property acquisitions or relocations will be carried out in accordance with the appropriate provisions of law and regulatory requirements. The projects included in this hearing are part of the approved 2015-2019 and 2020-2024 Capital Programs.

The capital projects have been or will be endorsed by the Metropolitan Planning Organizations for the New York metropolitan region and conform with the State Implementation Plan (SIP) as required by the Clean Air Act Amendments of 1990. The projects are not anticipated to have any significant adverse environmental impact. If the FTA prepares a formal environmental impact statement on any of the proposed projects, the MTA will issue a public notice to make the statement available. All legal requirements related to senior citizens and customers/people with disabilities will be met.

It is anticipated that any difference between the projects' cost and the federal grant amount will be satisfied through funds that are made available by any one or a combination of State, local, affiliated agency (such as MTA Bridges and Tunnels or MTA) sources, credits for non-federal project share generated from toll revenues in accordance with federal statute (23 USC 120 (j)), or sales of property or program income.

In Federal Fiscal Year 2022, MTA received \$815.1 million of Section 5307 funds, \$1.136 billion of Section 5337 State of Good Repair funds, and \$26.2 million of Section 5339 of Bus and Bus Facilities funds. Apportionments of Federal Fiscal Year 2023 is not yet available. Federal funds must generally be matched by a local share contribution for capital assistance of 20 percent for most funding categories.
