### Overall Latest Condition (compared with Budget):

Net preliminary operating results for YTD and the month of March were favorable to the Adopted Budget by \$106 million (6%) and \$31 million (6%), respectively.

Operating revenue YTD through March was favorable by \$54 million (3%), reflecting favorable passenger revenue of \$36 million (4%) and favorable toll revenue of \$36 million (7%), and offset by lower other operating revenue of \$18 million (8%). For March, operating revenue was \$33 million (5%) favorable: passenger revenue was \$25 million (7%) favorable and toll revenue was \$16 million (9%) favorable, offset by lower other operating revenue of \$8 million (9%).

Operating expenses YTD through March were favorable by \$99 million (3%): labor expenses were \$73 million (3%) favorable, and non-labor expenses were \$28 million (3%) favorable. For March, operating expenses were \$20 million (2%) favorable: labor expenses were \$19 million (2%) favorable and non-labor expenses were \$2 million (less than 1%) favorable. Other Expenses Adjustments, both YTD and for March, were unfavorable by less than \$1 million. Overtime spending YTD through March was \$46 million (21%) unfavorable, and was \$28 million (41%) unfavorable in March, both primarily due to vacancy/absentee coverage at NYCT. Debt service through March was favorable by \$42 million (5%) and was favorable by \$27 million (10%) in March, both primarily due to timing and lower than forecasted variable rates.

Operating subsidies for March YTD were \$89 million (9%) unfavorable, as noted in the table above. Looking forward, on an April year-to-date cash subsidy basis, subsidy receipts dedicated for operating purposes were \$93 million (7%) unfavorable, primarily reflecting results for the real estate transaction taxes, unfavorable by \$104 million (28%), the Petroleum Business Tax, favorable by \$8 million (4%), the Payroll Mobility Tax, favorable \$16 million (3%); and the For-Hire Vehicle Surcharge, unfavorable by \$12 million (10%).

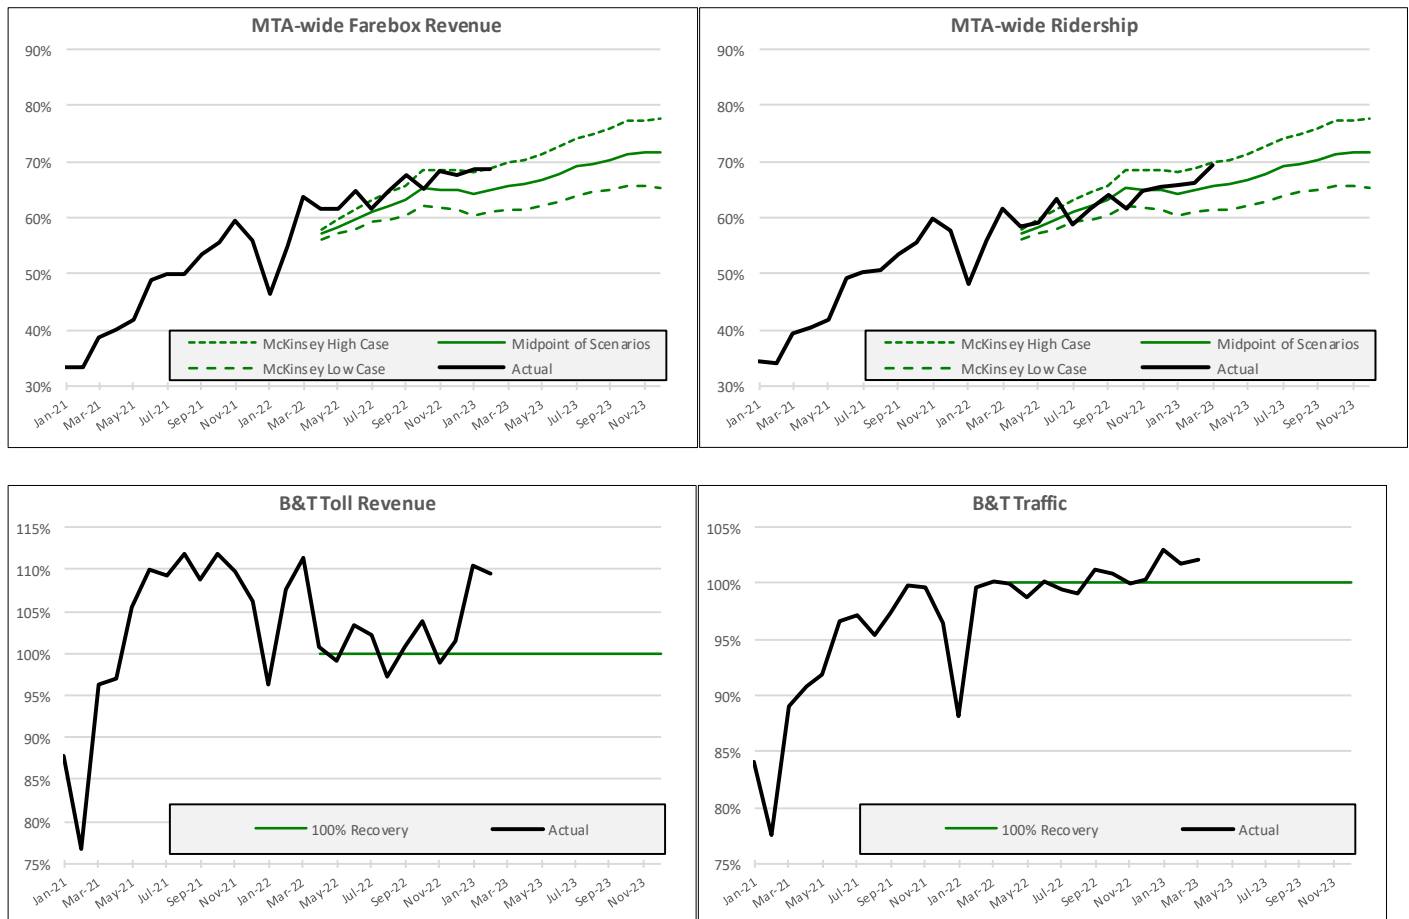

<sup>1</sup> Includes Farebox Revenue, Toll Revenue and Other Operating Revenue.

<sup>2</sup> Operating Subsidies are for March 2023, while subsidy results provided later in this report are for April 2023. Does not include State and Local Operating Assistance, Station Maintenance, City Subsidies for MTA Bus, and Staten Island Railway, CDOT Subsidy for Metro-North Railroad, and Other Subsidy Adjustments.

**Passenger revenues** for both the month and YTD were better than budget due to both higher than budgeted ridership and higher than anticipated average fares. In March, consolidated ridership was 11 million (8%) above budget, while YTD consolidated ridership was favorable by 15 million (4%). **Toll revenues** for both the month and YTD were favorable to the budget, reflecting higher than budgeted traffic volume. In March, traffic was 2 million (7%) favorable and YTD was 4 million (5%) favorable.

The 2023 Adopted Budget is based on the midpoint between the “high case” and “low case” scenarios prepared by McKinsey & Co. last spring. While exceeding the McKinsey projections, passenger revenues remain significantly below pre-pandemic levels: YTD March passenger revenues were down \$393 million (27%) compared with YTD March 2019 and March

passenger revenues were \$125 million (28%) below March 2019. Toll revenue, when adjusted to account for the 2021 toll increase, was higher by \$66 million (15%).

### Total Operating Expenses before Non-Cash Liability Adjustments

Year-to-date expenses were favorable by \$100 million (3%). The MTA Bus underrun was due to lower unscheduled overtime and the timing of expenses for materials, contracts, interagency billings, claims, health & welfare and OPEB. At the LIRR, lower spending was primarily due to vacancies, underruns in health & welfare and other fringe benefits, and the timing of pension payments, materials costs, maintenance contracts and reimbursable overhead. The B&T underrun reflects vacancies, lower health & welfare and timing of other fringe benefits, maintenance of E-ZPass equipment and E-ZPass tag-related costs. At FMTAC, the favorable variance mainly reflects the timing of contract renewals, recording of claims and projected loss reserves. Lower spending at MTA HQ was primarily due to the timing of hiring, retroactive wage adjustments, health & welfare, other fringe benefits, pensions, maintenance and operating contracts partially offset by higher professional services from 2022, reimbursable overhead, other program expenses, higher overtime in police deployment and vacancy coverage. The favorable variances above are offset primarily by MNR overrun due to overtime vacancy coverage, health & welfare rates, reimbursable charges, timing of repairs, rolling stock and material reserves. At NYCT, higher spending primarily reflects higher overtime, pension, maintenance, operating and paratransit contracts partially offset by vacancies, lower health & welfare, OPEB claims, timing of rebate credits and lower electric power expenses.

Preliminary expenses for March were favorable by \$21 million (2%). Favorable variances at MTA HQ were due to timing of hiring, retroactive wage adjustments, pensions, professional services, maintenance and operating contracts, partially offset by higher overtime in police deployment and reimbursable overhead. At MTA Bus, the underrun was due to vacancies, lower unscheduled and programmatic overtime, lower workers compensation; timing of health & welfare, claims, maintenance-related and service contracts, interagency billings, and lower material usage. Lower spending at the LIRR was due to vacant positions, lower railroad retirement taxes, timing of indemnity reserves and maintenance-related contracts partially offset primarily by higher overtime for scheduled/unscheduled service, vacancies and absentee coverage, and higher rates in electric power. The B&T underrun was due to vacancies, timing of pensions, bond issuance costs and other business expenses. The favorable variances above are offset primarily by NYCT overrun mainly reflecting overtime for vacancies and absentee coverage; timing of pension expenses, other fringe benefits, electric power, paratransit costs, real estate service charges, facility and subway cleaning contracts and partially offset mainly by health & welfare credits. The MNR overrun was due to retroactive wage adjustments, higher health & welfare, electric power rates, timing of maintenance-related services, contracts, leases, material reserves and infrastructure repairs.

Overtime expense overruns at NYCT, MNR, B&T, LIRR were primarily due to vacancies and absentee coverage. MTA HQ was unfavorable mainly due to increased MTA PD deployment requirements and at LIRR higher scheduled/unscheduled service. Partially offsetting these unfavorable results were lower overtime at MTA Bus. YTD overtime expenses were higher than forecast. The overrun variances were primarily due to factors noted for the month.

## Debt Service

Debt Service for March was \$245 million, which was \$27 million (10%) favorable due to the timing of debt issuances, debt service deposits and lower than budgeted variable rates. YTD Debt Service expenses of \$776 million were \$42 million (5%) favorable due to the same reasons noted for the month.

Funds received from the Mansion Tax and the Internet Sales Tax are deposited into the Capital Lockbox and are only available for capital purposes. At the time this report was prepared, the NYS portion of the Internet Sales Tax for April had not been transferred to the MTA.

<sup>6</sup> Mortgage Recording Taxes consist of two separate taxes on mortgages recorded in the twelve-county region: MRT-1 is a tax on all mortgages, while MRT-2 is also imposed on residential real estate structures containing up to six dwelling units.

<sup>7</sup> New York City Urban Taxes are imposed on commercial property and apartment building transactions within New York City. The MRT component is imposed on mortgages exceeding \$500,000, and the Real Property Transfer Tax component is imposed on transfers exceeding \$500,000.

<sup>8</sup> The Real Property Transfer Tax Surcharge (the "Mansion Tax") is a supplemental transfer tax, on the sale of residential properties valued at \$2 million or more in New York City; the supplemental tax rate increases as the property valuation increases.

<sup>9</sup> Internet Marketplace Sales Tax receipts are captured through the elimination of the tax loophole that previously exempted third-party internet marketplace providers from collecting and remitting applicable New York State and New York City sales taxes on transactions conducted on their sites.

## Regional Economy Report

In February 2023, seasonally adjusted New York City employment of 4.670 million was higher than in February 2022 by 203.8 jobs (4.6%), although it remains 43,300 jobs (0.69%) below the pre-pandemic February 2020 level. February seasonally adjusted employment was 12,400 jobs above last month, a 0.3% increase, and has increased in thirty-two of the thirty-four months since employment bottomed in April 2020; declines occurred in September and October 2022, when it declined 0.5% over those two months, a reduction of 21,800 jobs.

### Ridership and Employment

From January 2011 through February 2020, the twelve-month employment average increased 24.1%, while the 12-month MTA-wide ridership average fell 0.7%. The COVID pandemic has altered these trajectories: compared with January 2017, January employment is 4.7% higher, while MTA-wide ridership is 41.0% lower.

## Regional Economy Report

The following ridership and vehicular traffic trend graphs depict 12-month averages; for example, the January 2017 data point is the average of February 2016 to January 2017, and the February 2017 data point is the average of March 2016 to February 2017, providing a visual representation of trends over time. Further, data have been standardized to 1.0, allowing for an easier comparison of trends on a single graph.
