Purpose:

The purpose of this staff summary is to secure MTA Board (i) adoption of the accompanying **2022 Final Proposed Budget and the Four-Year Financial Plan 2022-2025** (“November Plan” or “Plan”), which includes approving the 2021 November Forecast and Plan Adjustments (items below the baseline), and (ii) authorization of Budget and Plan adjustments, including MTA policy actions, as set forth below in this Staff Summary.

Discussion:

This document summarizes the **November Plan**, which was presented to the Board for information purposes at the MTA Board meeting held on November 17, 2021 and projects ending cash balances of \$0 each year for 2020 through 2025 with the aid of federal funds and deficit bonding proceeds (see attachment A).

The November Plan captures the major assumptions that were first identified in the July Plan, with revisions to reflect stakeholder input and the impact of new developments and risks. The July Plan projected year-end balances of \$0 each year for 2021 through 2025. The most significant aspect of the July Plan was the inclusion of \$6.5 billion in anticipated federal funding aid through the American Rescue Plan Act of 2021 (ARPA), which was signed into law by President Biden on March 11, 2021. The second significant development was the widespread availability of COVID-19 vaccinations. As vaccination rates increased, capacity restrictions on restaurants, bars, event venues and businesses were mostly removed, and ridership on MTA services increased beyond the worst-case ridership recovery scenario developed by McKinsey & Company, which instead tracked consistently with the midpoint between best-case and worst-case scenarios developed by McKinsey. Vehicular crossings on B&T facilities recovered even quicker, tracking the best-case scenario developed by McKinsey. These improvements in ridership and traffic, and the improved recovery assumptions, were incorporated into the July Plan.

The July Plan also reflected a 6 percent toll rate increase that went into effect in mid-April 2021 as well as a four percent fare rate increase deferred until November 2021, subject to MTA Board approval. Other Agency re-estimates included \$268 million in New Needs expenses, partially offset by an increase of \$94 million from savings programs. Other Agency re-estimates were \$71 million unfavorable.

The July Plan included favorable re-estimates of state and local subsidy and dedicated tax receipts, which through 2024 increased by \$1.4 billion. Additionally, revenues generated by the Mansion Tax and the Internet

Marketplace Tax were redirected back into the Capital Lockbox to provide support for the Capital Program, which reduced overall subsidies available to cover the operating budget by \$515 million. The July Plan also restored Committed to Capital support from the operating budget (“PAYGO”) by \$631 million through 2023.

The July Plan also included two savings actions and deficit borrowing to help close budget gaps that existed even with federal funding from the CARES Act (\$4 billion), CRRSAA (\$4 billion), and ARPA (\$6.5 billion). The MTA proposed service guideline changes going into effect in 2023 to align with the projected post-pandemic “new normal” ridership levels based on the midpoint between the McKinsey best-case and worst-case scenarios; this action would have resulted in savings of \$632 million through 2025. A two-year wage freeze was also included in the July Plan. The MTA would honor all settled contracts, followed by a “pause” until the MTA’s financial picture better came into focus; non-represented employees also would not have wage increases in 2021 and 2022. These actions would have reduced the deficit by \$734 million through 2025. Lastly, the July Plan included the necessary use of \$1.3 billion of deficit bonding proceeds to close the 2025 deficit.

The November Plan

The MTA region has continued to make significant strides in the face of the COVID-19 pandemic. The rollout of highly effective COVID-19 vaccines, in combination with continued measures to control the spread of the virus, have resulted in many businesses and most government offices reopening at, or near, full capacity. New York City public schools began the school year in September with full in-person instruction, and Broadway theaters are once again staging performances. Over the course of the year, ridership and traffic volumes have continued to gradually increase. Currently, subway and bus service are scheduled at 100 percent of pre-pandemic levels with expectations of meeting that schedule daily, while the LIRR is providing service at approximately 85 percent of its pre-pandemic level and MNR is providing approximately 82 percent of pre-pandemic service.

Utilization projections in the November Plan remain consistent with those used in the July Plan: B&T utilization is based on McKinsey’s best-case scenario, and ridership, except for SIR ridership, is based on the midpoint of the McKinsey’s best-case and worst-case scenarios. SIR ridership continues to lag and is being projected under the worst-case scenario. Since the July Plan, ridership has slightly outpaced the Mid-Year Forecast, while traffic underperformed slightly, resulting in \$133 million in additional farebox revenue and \$9 million less from toll revenues through 2025. Despite these positive developments, ridership remains below pre-pandemic levels. As of the first week in November, ridership recovery as a percentage of pre-pandemic levels was 55 percent on Subways, 64 percent on Buses, 40 percent on SIR, 52 percent on LIRR and 48 percent on MNR. Traffic on B&T crossings was at 97 percent of the pre-pandemic crossing level. The McKinsey projections anticipate a “new normal” ridership level of between 82 percent and 91 percent of pre-pandemic levels by the end of the first quarter of 2024, the result of continuation of hybrid work schedules, with fewer days per week traveling to an office location, increased online shopping at the expense of brick-and-mortar locations, slower return of tourism, and increases in alternative travel, such as walking and bicycling. B&T traffic is expected to fully recover to its pre-pandemic level by the end of the second quarter of 2022.

In addition to farebox and toll revenue, Agency re-estimates include \$454 million in New Needs expenses as well as savings program re-estimates which reduce savings by \$302 million from the July Plan. These are fully offset by expense re-estimates that are favorable by \$756 million over the Plan period.

New Needs requests in the November Plan fund initiatives to improve maintenance and operations, enhance IT infrastructure, invest in safety initiatives, improve communications and expand human resources capabilities to expedite critical maintenance and operations hiring. Among the major initiatives: expansion of the all-electric bus fleet testing program as the MTA transitions to a fully zero-emissions fleet by 2040; additional operational employee hiring at NYCT to address higher employee absenteeism and ensure that scheduled service can be provided; a dedicated auditing staff in the LIRR Signal Group to support recommendations that emerged from a yard derailment investigation; twenty-year maintenance of MNR’s M-7 fleet and life extension of MNR’s M-3A fleet; consolidated LIRR/MNR ticket vending machine maintenance, trash removal and fire brigade/EMS coverage to support the opening of East Side Access; weekly employee COVID testing to conform with NY State

mandates; the provision of mandated training to security sensitive employees; enhancements and upgrades to the MTA's Peoplesoft system to allow for increased functionality; a new crew dispatching and management system for the LIRR and MNR; and, additional MNR conductors to meet CDOT service requirements.

The November Plan includes unfavorable adjustments made to actions previously implemented. These include the restoration of Bus Operator and Cleaner positions and additional overtime in support of Station Agent booth hours of operation and staffing at NYCT, and the re-assessment of the consolidated office space plan from moving B&T staff from 2 Broadway to Randall's Island. Additionally, there were unfavorable adjustments made to prior-year BRPs, including those related to the timing of timekeeping savings, and implementing booth staffing and lunch relief savings at NYCT.

State and local subsidy and dedicated tax receipts also have improved, with revenue \$1.5 billion higher through 2025 compared with the July Plan. Projections reflect updated revenue projections of State subsidies provided by the New York State Division of the Budget, as well as improvements in receipts from the real estate transaction taxes and the Payroll Mobility Tax, both due to favorable changes in projections of the economic drivers of these subsidy sources. The 2021 General Reserve of \$170 million is being obligated to partially repay a \$1 billion intracompany loan that was made from capital accounts to the operating budget. Additionally, \$40 million is being restored to the fuel hedge collateral fund, which was reduced in 2019 as a temporary action to improve cash availability.

Debt Service is unfavorable compared with the July Plan by \$298 million through 2025. This is comprised of \$393 million in additional debt service paid from the Capital Lockbox, partially offset by a favorable change of \$95 million in debt service costs covered directly by the operating budget.

The November Plan also reflects changes to several items that were below-the-line in the July Plan.

The 2021 fare increase was originally proposed to go into effect in March 2021, and then deferred in the July Plan until November 2021. In the November Plan, this action is proposed to be implemented in mid-2022 and this timing change reduces the farebox revenue that is expected to be generated by \$17 million in 2021 and \$88 million in 2022.

Minor changes in Agency baseline farebox and toll revenue levels reduce the amount of revenue expected to be generated by \$14 million from the 2023 and 2025 proposed fare and toll increases.

The Transformation Management Office has accomplished significant goals since its inception, including bridging strategic and core support functions across the MTA and creating a foundation for central departments to better serve agency operations, as well as providing significant vacancy savings. The focus of transformation is now shifting to the newly created consolidated functional departments to develop additional efficiencies across the organization. With this shifted focus, the remaining \$25 million in unidentified 2021 Transformation savings is being removed from the Plan, and in its place is anticipated annual savings of \$150 million from new efforts that will be spearheaded by the consolidated functional departments. Overall, these actions reduce savings by \$19 million through 2025.

The MTA had proposed service guideline adjustments to align with the projected post-pandemic "new normal" ridership levels based on the McKinsey worst-case scenario. The proposed changes focused on achieving significant cost reductions, mitigating negative customer impacts, and providing service in response to current and projected ridership, and service would be restored as ridership levels improve. With ridership trending on a path consistent with the midpoint between the McKinsey best-case and worst-case scenarios, service adjustments were scaled back in the July Plan to conform with the updated ridership projections and the accompanying expense savings were reduced to \$220 million in 2023 and \$206 million in each of 2024 and 2025.

The MTA had also proposed in the November 2020 Plan a wage freeze through 2022 for all employees, both represented and non-represented. With the arrival of ARPA Federal Aid, this proposed action was revised in the

July Plan. The TWU Local 100 contract, a four-year contract that runs from mid-May 2019 through mid-May 2023, along with all other settled contracts, was to be fully honored. Bargaining units that typically follow the TWU pattern settlements had either entered into two-year agreements similar to the first two years of the current TWU contract or were assumed to do so, and those two-year contract costs were reflected in the July Plan, but followed by a “pause” until the MTA’s financial picture better came into focus. Non-represented employees also would not have wage increases for two years, in 2021 and 2022. Savings from this policy action were estimated in the July Plan to be \$171 million in 2022, \$174 million in 2023, \$191 million in 2024 and \$198 million in 2025.

The financial plan process provides ample opportunities for the MTA Board and riders to respond to proposals, which prompted a re-evaluation of the proposed service guideline-based changes and the proposed two-year wage freeze. With the MTA welcoming riders back to the subway, bus and commuter railroads, and with finances clearer in the near term thanks to the infusion of \$14.5 billion in federal funding, the proposed service guideline-based changes and the proposed two-year wage freeze are removed from this Plan, eliminating savings of almost \$1.4 billion through 2025 that had been included in the July Plan.

Reimbursement of direct COVID-related expenses through the Federal Emergency Management Agency (FEMA) are expected to increase by \$135 million in this Plan due to the extension of the coverage period to December 31, 2021.

The timing of the use of CRRSAA and ARPA federal aid are updated from the July Plan to maintain annual fiscal balance, although the total amount of aid—\$4 billion from CRRSAA and \$6.5 billion from ARPA—is unchanged.

To balance 2025, \$1.367 billion in proceeds from MLF deficit borrowing will be needed; this is \$48 million more than the deficit borrowing need projected in the July Plan.

While the Plan is balanced through 2025, it is only balanced with \$10.5 billion in federal funding through CRRSAA and ARPA, as well as with the \$4.0 billion in CARES Act funding that was received and used to balance the 2020 budget. The Plan’s balanced bottom line is also contingent on the implementation of proposed fare and toll increases in 2022, 2023 and 2025, which contribute a total of \$1.8 billion in revenue over the course of the Plan period. In 2025, almost \$1.4 billion of proceeds from deficit borrowing will be needed to close that year’s budget gap.

Without the fare and toll increases, federal funding, and the availability of deficit borrowing proceeds, each year of the Plan would be substantially out of balance: deficits of \$3.4 billion in 2021, \$2.5 billion in 2022, \$2.0 billion in 2023, \$2.5 billion in 2024, and \$3.2 billion in 2025.

The “Bottom Line”

In total, the cumulative impact of the changes since the July Plan is a continued balanced budget through 2025. But as noted above, this balancing is only achieved with the receipt of \$10.5 billion in federal aid from CRRSAA and ARPA, which is on top of the \$4 billion received and fully expended in 2020 from the CARES Act, the implementation of the fare and toll rate increases proposed for 2022, 2023 and 2025, and the use of \$1.4 billion in deficit borrowing proceeds. The federal funding, however, masks the structural imbalance in MTA’s finances. Without the fare and toll increases, ARPA and the use of deficit borrowing proceeds, 2025 would be \$3.2 billion out of balance. Even if the fare and toll increases were implemented, 2025 would still be out of balance by \$2.4 billion without federal funding and the deficit borrowing proceeds. And with federal funding exhausted in 2025 and only \$1.5 billion remaining in deficit borrowing proceeds, 2026 will likely be significantly out of balance without actions to address the structural imbalance.

Challenges to be Addressed

Implementation of the 2022 fare increase and biennial fare and toll increases in 2023 and 2025. While the MTA works diligently to control costs, the reality is that combined fares and tolls only cover approximately half of operating costs (“Farebox Operating Ratio”) and a little more than a third of total expenses, including capital costs (“Farebox Recovery Ratio”). Moreover, many costs are dependent on pricing factors outside MTA’s direct control (e.g., energy, labor, health & welfare and pensions) and many costs are increasing at a rate above the assumed annual increase in fares and tolls of approximately 2 percent. Through 2025, the Plan assumes a combined \$1.787 billion in additional fare and toll revenue from the projected 2022, 2023 and 2025 fare and toll increases.

Finding and implementing innovative savings actions. The MTA must remain focused on existing cost control efforts, not only to avoid “backsliding” but to find additional savings throughout the organization as part of a multifaceted approach to addressing the MTA’s structural imbalance. With centralized departments in place to better serve agency operations, the focus of transformation has shifted to developing additional efficiencies across the organization, with further savings of \$600 million through 2025 targeted in the November Plan.

Achieving affordable wage settlements. The MTA is committed to honoring the terms of its existing contracts. The proposed two-year wage freeze is removed from the November Plan, and MTA remains committed to negotiating affordable wage settlements with its unions.

Aligning Service to match Board-adopted service guidelines. While service reductions based on “new normal” ridership levels projected by McKinsey have been removed from the November Plan, the MTA will continue to match service with ridership demand, based on long-established, Board-adopted, service guidelines.

Working with MTA’s funding partners to identify new recurring and sustainable funding sources. With expense growth, particularly labor expenses, consistently outpacing the additional revenue expected from proposed biennial fare and toll increases that average two percent per year, new and sustainable funding sources will be critical to surmounting the MTA’s fiscal structural imbalance.

Recommendation:

It is recommended that the Board:

- Adopt the 2022 Final Proposed Budget and Four-Year Financial Plan 2022-2025 (November Plan), which includes approving the 2021 November Forecast and Plan Adjustments (items below the baseline). The approval of this Plan will supersede prior Board Plan approvals for this period. Note that the projected 2023 and 2025 fare/toll increase proposals will require separate Board actions in advance of those dates.
- Authorize staff, under the guidance and direction of the Chairman/CEO, Chief Financial Officer, or their designees to take actions to implement the policy actions set forth in the Plan.
- Authorize staff to draw down the unexpended 2021 general reserve of \$170 million, which will be used to partially pay down the outstanding interagency loan that was made to the operating budget from capital funds.
- Authorize technical adjustments to MTA budgets and forecasts of a non-material nature in the 2022 February Plan.
- Authorize adjustment of MTA budgets and forecasts to reflect labor settlements approved from time to time by the Board.

- Authorize staff, under the guidance and direction of the Chairman/CEO, the Chief Financial Officer, or their designees (including the MTA Treasurer), to take additional budget and cash management actions, as has been done in past budgets, to draw on the general reserve and/or make budget adjustments to respond to unexpected expenses or revenue/subsidy shortfalls, and other actions described below:

Advance of Bridges and Tunnels Operating Surplus

The Board is requested to authorize Bridges and Tunnels to advance to MTA and MTA New York City Transit, to the extent funds are available, all or part of the estimated operating surplus for the year 2020.

Uses of MTA MRT-2 Corporate Account Monies

Unlike many other forms of intergovernmental aid, these subsidy monies, by statute, can be allocated at the Board's discretion. It is recommended that the Board authorize that these funds be used as set forth in the Plan, authorize staff to administer these funds in a manner consistent with the Plan, and to temporarily help stabilize cash-flow requirements. As in the past, the advance of funds to the MTA and its affiliates and subsidiaries to stabilize cash-flow requirements may be made, provided they are repaid prior to the end of the fiscal year in which made.

Uses of Payroll Mobility Tax (and Replacement Funds) and MTA Aid

Like the MRT-2 Corporate Account moneys, these subsidy monies, by statute, can be allocated at the Board's discretion. It is recommended that the Board authorize that the revenues from the PMT (and Replacement Funds) be released as needed: (i) for pledged revenues by MTA to secure and be applied to the payment of bonds to be issued in the future, to fund capital projects of MTA, its subsidiaries, and MTA New York City Transit and its subsidiary and (ii) to pay capital costs, including debt service of MTA, its subsidiaries, and MTA New York City Transit and its subsidiary. It is further recommended that the Board authorize that subject to the provisions of any such pledge, or in the event there is no such pledge, the PMT Revenues be used by MTA to pay for costs, including operating and capital costs of MTA, its subsidiaries and MTA New York City Transit and its subsidiary.

Further, it is recommended that the Board authorize that the revenues in the MTA Aid Trust Account (derived from four fees and taxes imposed in the Metropolitan Commuter Transportation District – a supplemental motor vehicle license fee, a supplemental motor vehicle registration fee, a tax on medallion taxicab rides, and a supplemental tax on passenger car rentals) be released as needed and used as pledged revenues by MTA or pledged to the Triborough Bridge and Tunnel Authority to secure debt of MTA Bridges and Tunnels. Further, subject to the provisions of such pledge, or in the event there is no such pledge, the Board authorizes the release of these funds to be used by MTA for the payment of operating and capital costs of the MTA and its subsidiaries, and MTA New York City Transit, and its subsidiary.

Inter-Agency Loans

The Board is requested to authorize staff acting under Section 1266 (6-a) of the Public Authorities Law, to enter into inter-agency loan agreements among the MTA and its affiliates and subsidiaries. This authorization would allow the temporary movement of funds among agencies to meet cash flow requirements for operating or capital purposes resulting from a mismatch between the receipt of subsidies and other monies and cash flow needs. The statute requires that any such inter-agency loans be repaid no later than the end of the next succeeding calendar year.

Use of Stabilization Reserve: Provision for Prompt Payment of Contractual Obligations

In 1996, the Board approved the establishment of a Stabilization Reserve, to be held by the MTA Treasurer (the "Treasurer"), to stabilize MTA Agencies' cash flow requirements. The fund consists of two accounts, the MTA New York City Transit Account (the "Transit Account") and the MTA Commuter Railroad Account (the "Commuter Railroad Account"). The Board is requested to

authorize the use of any balances in such accounts, plus any amounts authorized to be transferred to such accounts, to meet the cash flow requirements of MTA New York City Transit, MTA Long Island Rail Road and MTA Metro-North Railroad, and to authorize New York City Transit to pay to the Treasurer for deposit in the Transit Account such amounts as it deems necessary to accomplish the purpose thereof, consistent with this Plan; and the Treasurer to pay into the Commuter Railroad Account, such amounts as are deemed necessary to accomplish the purpose thereof, consistent with this Plan. The Treasurer, upon request of New York City Transit, shall pay to MTA New York City Transit such amounts as are necessary to meet cash flow requirements of MTA New York City Transit and shall transfer from the Commuter Railroad Account such amounts as are necessary to meet the cash flow requirements of MTA Long Island Rail Road and MTA Metro-North Railroad. The Treasurer shall also use such funds as from time to time may be necessary or convenient to timely make debt service payments on MTA bonds.

PURPOSE:
To secure MTA Board adoption of the MTA Bridges and Tunnels' (B&T) 2021 November Forecast, 2022 Final Proposed Budget, and the Four-Year Financial Plan for 2022-2025.

DISCUSSION
The 2022 Final Proposed Budget, which is consistent with information presented to the Board in November 2021, provides sufficient funding to maintain B&T's planned service levels, as well as MTA's commitment to provide safe, reliable and efficient transportation service to the metropolitan New York region. The baseline projections exclude the estimated impacts from projected toll increases, and other MTA consolidated below-the-line adjustments, which are presented as part of MTA consolidated materials.

B&T estimates that \$1,652.9 million and \$1,721.9 million will be provided in baseline net operating income for 2021 and 2022, respectively.

Key Initiatives:

- **COVID Impact** - The November Plan reflects a small reduction to toll revenue in 2021, as traffic levels reached approximately 96% of pre-pandemic levels in the third quarter. Traffic volume is now projected to reach 100% of pre-pandemic levels in the second quarter of 2022.

- **Central Business District Tolling Program -**

MTA and B&T staff continue their work on the Central Business District Tolling Program (CBDTP), which aims to reduce congestion in Manhattan's Central Business District (CBD) and, along with other revenues in the Capital Lockbox, will generate the revenue necessary to support \$15 billion in bonding capacity for the 2020-2024 and subsequent MTA Capital Programs. The CBDTP, which was authorized by the MTA Reform and Traffic Mobility Act, enacted in April 2019, includes the installation of electronic tolling equipment and infrastructure on the perimeter and within the CBD, defined as streets south and inclusive of 60th Street in Manhattan, and excluding the FDR Drive, NYS Route 9A (also known as the West Side Highway), the Battery Park Underpass, and the surface road portion of the Hugh L Carey Tunnel that connects to West Street. MTA and B&T staff are working closely with the New York City Department of Transportation on the preliminary design of the infrastructure to support the toll system, and the traffic analysis mandated in the legislation. At this point in time, the roadway toll system and infrastructure vendor has demobilized the infrastructure subcontractors who were engaged in preliminary design work. As per Federal Highway Administration (FHWA) guidance on March 30, 2021, an Environmental Assessment (EA) with a robust public participation process involving stakeholders from New York, New Jersey, and Connecticut is required, and is currently underway. Coupled with the robust public outreach, modeling and analysis continues on the EA to determine the potential effects of the Program. Under the current schedule, a decision from FHWA is anticipated in late 2022. If the Program receives federal approval, CBDTP toll rates will ultimately be set by a vote of the MTA Board, informed by recommendations from the Traffic Mobility Review Board and after a public hearing. Until the commencement of operations, implementation costs will be funded through B&T PAYGO and other capital resources, all of which will be reimbursed when the program becomes fully operational.

- **Savings Programs -** The November Plan includes an unfavorable re-estimate to an Additional Savings Action incorporated in the 2021 February Plan for rent savings, restoring \$1.2 million to the rent budget in 2021 and an average of \$1.4 million each year from 2022 through 2025, based on a re-assessment of the consolidated office space plan. All other Additional Savings Actions incorporated in the 2021 February Plan are still on track to meet savings goals. These include reductions to Major Maintenance, equipment savings at the Verrazano-Narrows Bridge, and a \$4.4 million reduction to controllable overtime. B&T continues to search for new opportunities for cost reduction and operational efficiencies.

2021 NOVEMBER FORECAST- BASELINE

The 2021 November Forecast projects \$2,154.6 million in non-reimbursable revenues, of which \$2,131.6 million is from Toll Revenue. Total non-reimbursable expenses before depreciation and other post-employment benefits are projected to be \$501.7 million, consisting of \$248.1 million in labor expenses and \$253.6 million in non-labor expenses. Overtime remains unchanged from the Mid-Year-Forecast. Total Support to Mass Transit is projected to be \$1,289.9 million. Reimbursable revenue and expenses are both forecast at \$18.3 million. Total end-of-year positions are budgeted at 1,369, including 1,244 non-reimbursable positions and 125 reimbursable positions.

The legal name of MTA Bridges and Tunnels is Triborough Bridge and Tunnel Authority.

2022 FINAL PROPOSED BUDGET- BASELINE

The 2022 Final Proposed Budget projects \$2,277.2 million in non-reimbursable revenues, of which \$2,257.0 million is from Toll Revenue. Total non-reimbursable expenses before depreciation and other post-employment benefits are projected to be \$555.2 million, consisting of \$264.8 million in labor expenses and \$290.4 million in non-labor expenses. Overtime remains unchanged from the projection in the 2022 Preliminary Budget. Total Support to Mass Transit is projected to be \$1,352.5 million. Reimbursable revenue and expenses are both forecast at \$28.3 million. Total end-of-year positions are currently budgeted at 1,369 including 1,244 non-reimbursable positions and 125 reimbursable positions.

IMPACT ON FUNDING

The 2021 November Forecast, the 2022 Final Proposed Budget, and the Four-Year Financial Plan 2022-2025, which are presented in the attached tables, are consistent with the proposed MTA Financial Plan.

RECOMMENDATION

It is recommended that the MTA Board adopt the 2021 November Forecast, the 2022 Final Proposed Budget, and the Four-Year Financial Plan for 2022-2025 for MTA Bridges and Tunnels.

The legal name of MTA Bridges and Tunnels is Triborough Bridge and Tunnel Authority.

2	President 		

Purpose:

To secure MTA Board adoption of the MTA Construction & Development (MTA C&D) 2021 November Forecast, 2022 Final Proposed Budget, and the Four-Year Financial Plan for 2022-2025.

Discussion:

MTA C&D organization was created in 2019 to streamline, oversee, and improve regional capital planning, capital program development, the delivery functions of transit network expansion projects, and upgrades to stations and system-wide infrastructure. The operational functions and management of capital projects previously handled by former MTA Capital Construction Company (MTACC) are now the responsibility of MTA C&D.

The Financial Plan contains MTA C&D's operational costs to support transit-oriented development, advertising, planning, capital program management functions as well as the maintenance of various MTA facility locations. In addition, Reimbursable expenses primarily of work performed in support of the MTA Capital Program and the "pass-through" charges for West Side Yard development are included in the Financial Plan.

2021 November Forecast - Baseline:

The 2021 November Forecast reflects Non-Reimbursable revenue projections totaling \$49.0 million and expenses before depreciation totaling \$83.1 million. Of the \$83.1 million in expenses, \$5.4 million is Labor expense and the remaining \$77.7 million is Non-Labor expense. Cash conversion adjustments before depreciation are \$33.9 million, related to real estate operating-capital projects. MTA C&D projects 79 Non-Reimbursable positions at year-end.

Reimbursable expenses are projected to be \$68.9 million, consisting of \$28.6 million in Labor expenses and \$40.3 million in Non-Labor expenses. Annual reimbursable staffing levels are projected at 182 to support the operational functions and management of capital projects such as East Side Access, LIRR Concourse Train Hall and Penn Station Access.

2022 Final Proposed Budget - Baseline:

The 2022 Final Proposed Budget reflects Non-Reimbursable revenue projections totaling \$51.6 million, and expenses before depreciation of \$90.8 million. Of the \$90.8 million expenses, \$6.7 million is Labor expense and the remaining \$84.1 million is Non-Labor expense. Cash conversion adjustments before depreciation are \$5.9 million, related to real estate operating-capital projects. Non-Reimbursable positions are projected to be 79 by year-end.

Reimbursements are projected to be \$82.9 million, with labor expenses of \$40.5 million and non-labor expenses of \$42.4 million. Annual Reimbursable staffing levels will continue to remain at 182 positions.

Impact on Funding:

The 2021 November Forecast, the 2022 Final Proposed Budget, and the Four-Year Financial Plan for 2022-2025, which are presented in the attached tables, are consistent with the 2021 November Financial Plan presented to the Board in November 2021.

Recommendation:

It is recommended that the MTA Board adopt the 2021 November Forecast, the 2022 Final Proposed Budget, and the Four-Year Financial Plan for 2022-2025 for the MTA Construction & Development.

Purpose

To secure MTA Board adoption of the MTA Long Island Rail Road's (LIRR) 2021 November Forecast, 2022 Final Proposed Budget, and the Four-Year Financial Plan for 2022 – 2025.

Discussion

The 2022 Final Proposed Budget, which is consistent with information presented to the Board in November 2021, provides funding to maintain the Long Island Rail Road's commitment to delivering safe, secure, and reliable transportation and first-class customer service. Sufficient investments are included in this Financial Plan to support the LIRR's enhanced cleaning initiatives in response to COVID-19, ongoing safety initiatives, asset maintenance efforts, and system expansion projects. The LIRR projections do not include the estimated impacts of projected fare increases and MTA consolidated below-the-line adjustments, which are presented as part of MTA consolidated materials.

The 2022 Final Proposed Budget reflects the full integration of the LIRR Forward philosophy into how the LIRR manages every day. Particular attention is being paid to customer communication and operational resiliency. The financial plan focuses on Reliability Centered Maintenance (RCM) for rolling stock to ensure maximum fleet availability and on maintenance of the right-of-way to maintain a state of good repair. This is particularly important as many components are entering critical maintenance stages. Funding and resources also are included to support and maintain the new Positive Train Control (PTC) system, ramp-up costs for East Side Access (ESA) readiness efforts (some of which remain below-the-line at the MTA level), and other operating budget impacts, including Moynihan Station, Belmont Park, and Main Line Expansion.

Achieving an efficient operation remains a priority. MTA LIRR continues to monitor the Additional Savings Actions implemented in the 2021 February Financial Plan, which included reduced reliance on outside consultants and contractors, reduced non-service-related expenses, and reduced overtime. These reductions provide savings throughout the Plan period. The LIRR continues to subject all areas of the budget to intensive review.

2021 November Forecast - Baseline

The 2021 Non-Reimbursable November Forecast reflects revenues totaling \$329.4 million, including \$296.8 million in Farebox Revenue and \$32.7 million in Other Operating Revenue. Total Operating Expense projections of \$2,143.0 million consist of labor costs of \$1,226.1 million, non-labor costs of \$370.8 million and non-cash liability adjustments of \$546.1 million. Total Reimbursable expense projections of \$420.5 million are fully offset by capital reimbursements. Total end-of-year authorized positions are projected at 7,622 and include 6,391 Non-Reimbursable positions and 1,231 Reimbursable positions.

2022 Final Proposed Budget - Baseline

The 2022 Non-Reimbursable Final Proposed Budget reflects revenues totaling \$584.0 million. Farebox Revenue of \$554.9 million reflects ridership growth based on the midpoint of McKinsey's "best case" and "worst case" ridership recovery scenarios and projects ridership will reach a new normal level of 79.5% of pre-pandemic ridership during the first quarter of 2024. Other Operating Revenue of \$29.0 million largely reflects revenue from advertising and rental fees. Total Operating Expense projections of \$2,405.3 million consist of labor costs of \$1,295.9 million, non-labor costs of \$568.3 million and non-cash liability adjustments of \$541.1 million. Total Reimbursable expense projections of \$471.8 million are fully offset by capital reimbursements. Total end-of-year authorized positions are projected at 7,729 and include 6,577 Non-Reimbursable positions and 1,152 Reimbursable positions.

Impact on Funding

The 2021 November Forecast, 2022 Final Proposed Budget and the Four-Year Financial Plan for 2022 – 2025, which are presented in the attached tables, are consistent with the proposed MTA Financial Plan.

Recommendation

It is recommended that the MTA Board adopt the 2021 November Forecast, the 2022 Final Proposed Budget and the Four-Year Financial Plan for 2022 – 2025 for the MTA Long Island Rail Road.

Purpose

To secure MTA Board adoption of the MTA Metro-North Railroad’s (MNR) 2021 November Forecast, 2022 Final Proposed Budget, and the Four-Year Financial Plan for 2022-2025.

Discussion

The 2022 Final Proposed Budget, which is consistent with information presented to the Board in November 2021, provides funding for strategic investments that further promote safe, secure, and reliable transportation service for our customers, continuing improvements in our infrastructure and a safe and secure working environment for our employees. Metro-North projections do not include the estimated impacts from projected fare increases in New York State and other MTA consolidated below-the-line adjustments . These impacts are presented as part of the MTA consolidated materials.

The 2022 Final Proposed Budget includes several key initiatives aligned with Metro-North’s Way Ahead - Moving Forward Plan. These key initiatives are:

- *Maintenance of Way Dedicated Rail Gang* –This program, which is funded out of the capital program, will enable MNR to hire a dedicated 64-member rail gang to dramatically reduce the time required to achieve a state of good repair and significantly enhance rail safety, train speed, on-time performance (OTP), and other projects on the railroad.
- *Maintenance Staffing for White Plains Station Redesign* – This funding will allow MNR to hire additional staffing to maintain this newly redesigned station, which now includes an additional elevator, larger restrooms, heated and extended platforms, significantly more glass area, and many more enhancements.
- *East Side Access Operations* – With the opening of the LIRR terminal at Grand Central Terminal (GCT) in late 2022, MNR will be adding 18 additional staff members to support Ticket Vending Machine (TVM) Operations for the LIRR, the Unified Trash Facility and additional Fire Brigade / EMS Officers for both railroads, and staffing to perform additional security functions.
- *Conductor Staffing Additions for Capital Projects and Service Requirements* – Changes to the Capital Program, including those related to the Penn Station Access and the Park Avenue Viaduct projects, as well as increased CDOT service requirements, will require additional dedicated capital flagging and conductor resources.
- *M-3A Fleet Life Extension Program* – The M-3A fleet is now expected to remain in service for an additional ten years until 2030, which requires critical systems to be replaced or refurbished. This approach is considered to be a cost-effective alternative to the purchase of new rolling stock in the near-term.

The legal name of MTA Metro-North Railroad is Metro-North Commuter Railroad Company

- *M-7 Fleet Twenty-Year Reliability Centered Maintenance (RCM) Event* – This 20-year RCM event will identify and source material to replace aging or obsolete car systems on the entire M-7 Fleet to maintain safe and reliable service and will optimize the anticipated life-cycle ownership costs of this fleet.

Achieving an efficient operation remains a priority. Metro-North continues to manage its program of significant Additional Savings Actions implemented in the 2021 February Financial Plan, which included reduced reliance on outside consultants and contractors, reduced non-service-related expenses, and reduced overtime. These reductions provide savings throughout the Plan period.

2021 November Forecast-Baseline

The 2021 Non-Reimbursable forecast reflects revenues totaling \$287.8 million, including \$260.5 million in Farebox Revenue and \$27.2 million in Other Operating Revenue. Total Operating Expense projections of \$1,711.1 million consist of labor costs of \$970.1 million, non-labor costs of \$371.0 million and non-cash liability adjustments of \$370.0 million. Total Reimbursable expense projections of \$306.7 million are fully offset by capital reimbursements. Total end-of-year authorized positions are projected at 6,854 and include 6,219 Non-Reimbursable positions and 635 Reimbursable positions.

2022 Final Proposed Budget-Baseline

The 2022 Final Proposed Non-Reimbursable budget reflects revenues totaling \$543.5 million. Farebox Revenue of \$514.8 million reflects ridership growth based on the midpoint of McKinsey's "best case" and "worst case" ridership recovery scenarios and projects ridership will reach a new normal level of 74% of pre-pandemic ridership in the fourth quarter of 2022. Other Operating Revenue of \$28.6 million reflects GCT net retail revenues, advertising, and outlying station & parking revenue. Total Operating Expense projections of \$1,797.8 million consist of labor costs of \$984.6 million, non-labor costs of \$443.4 million and non-cash liability adjustments of \$369.9 million. Total Reimbursable expense projections of \$288.8 million are fully offset by capital reimbursements. Total end-of-year authorized positions are projected at 7,047 and include 6,334 Non-Reimbursable positions and 713 Reimbursable positions.

Impact on Funding

The 2021 November Forecast, the 2022 Final Proposed Budget and the Four-Year Financial Plan for 2022-2025, which are presented in the attached tables, are consistent with the proposed MTA Financial Plan.

Recommendation

It is recommended that the MTA Board adopt the 2021 November Forecast, the 2022 Final Proposed Budget, and the Four-Year Financial Plan for 2022-2025 for MTA Metro-North Railroad.

Purpose:

To secure MTA Board adoption of the MTA Headquarters 2021 November Forecast, 2022 Final Proposed Budget, and the Four-Year Financial Plan for 2022-2025.

Discussion:

The 2022 Final Proposed Budget, which is consistent with information presented to the Board in November 2021, provides sufficient funding to maintain current MTA Headquarters' operations to support the overall MTA mission of serving its customers and the people of New York by providing policy, financial guidance, administrative services and oversight to the Operating Agencies, while also maintaining a safe and secure system for customers, employees and those doing business with the MTA.

MTA Headquarters Budget and Financial Plan supports the significant actions being taken by MTA leadership to respond to the COVID-19 pandemic, including vaccination and weekly COVID-19 testing for employees who have not been vaccinated. As part of its mission to provide the most efficient use of limited financial resources, Headquarters and Agency staff continue to drive business process change and efficiencies in and administrative areas throughout the MTA.

In addition to the above, Headquarters continues to support high priority initiatives that began in previous plans and focuses on increasing efficiencies, safety, communications, and improving the customer experience. These include:

- MTA Police Department (MTAPD) enhanced security measures,
- Grade crossing initiatives and other safety management projects,
- Support for the full implementation of the One Metro New York (OMNY) fare payment system,
- Continued upgrade, installation, and expansion of attendance and timekeeping systems,
- Increased customer communication initiatives,
- Information Technology (IT) initiatives and upgrades to support business and Agency needs, and
- The Central Business District Tolling program.

The baseline projections exclude MTA consolidated below-the-line adjustments, which are presented as part of MTA consolidated materials.

2021 November Forecast – Baseline:

The 2021 Non-reimbursable November Forecast reflects operating revenues of \$14.4 million and expenses before depreciation and other post-employment benefits of \$873.9 million, consisting of \$444.0 million in labor expenses and \$429.9 million in non-labor expenses. Non-cash liability adjustments total \$109.1 million. End-of-year non-reimbursable positions are projected to be 2,965 positions.

Total reimbursable expenses are projected to be \$107.5 million consisting of labor expenses of \$80.9 million and non-labor expenses of \$26.6 million. End-of-year reimbursable positions are projected to be 92 positions.

Cash adjustments are projected at \$118.3 million. Total end-of-year positions are projected to be 3,057.

2022 Final Proposed Budget – Baseline:

The 2022 Final Proposed Non-reimbursable Budget reflects operating revenues of \$15.7 million and expenses before depreciation and non-cash items of \$939.3 million, consisting of \$511.3 million in labor expenses and \$428.0 million in non-labor expenses. Non-cash liability adjustments total \$126.6. End-of-year non-reimbursable positions are projected to be 3,219 positions.

Total reimbursable expenses are projected to be \$93.4 million, with reimbursable labor expenses of \$71.6 million and non-labor expenses of \$21.8 million. End-of-year reimbursable positions are projected to be 92 positions.

Cash adjustments are projected at \$238.5 million. Total end-of-year positions are projected to be 3,311.

Impact on Funding:

The 2021 November Forecast, the 2022 Final Proposed Budget, and the Four-Year Financial Plan for 2022-2025, which are presented in the attached tables, are consistent with the proposed MTA Financial Plan.

Recommendation:

It is recommended that the MTA Board adopt the 2021 November Forecast, the 2022 Final Proposed Budget and the Four-Year Financial Plan for 2022-2025 for MTA Headquarters.

Inspector General

Staff Summary

Subject: MTA IG 2022 Budget and 2022-2025 Financial Plan Adoption	Date December 1, 2021
Department Office of the Chief Financial Officer	Vendor Name
Department Head Name Robert Foran, Chief Financial Officer	Contract Number
Department Head Signature 	Contract Manager Name
Project Manager/Division Head Carolyn Pokorny, MTA Inspector General 	Table of Contents Ref #

Board Action					
Order	To	Date	Approval	Info	Other
1	Finance Comm.	12/13/20	X		
2	Board	12/15/20	X		

Internal Approvals			
Order	Approval	Order	Approval
1	OMB 		

Purpose:

To secure MTA Board adoption of the MTA Inspector General's 2021 November Forecast, 2022 Final Proposed Budget, and the Four-Year Financial Plan for 2022-2025.

Discussion:

The 2022 Final Proposed Budget provides adequate funding and resources to maintain the MTA Inspector General's operations.

2021 November Forecast - Baseline

Total Capital and Other Reimbursements are projected to be \$14.9 million. Total Reimbursable labor expenses are \$11.1 million and non-labor expenses are \$3.7 million.

2022 Final Proposed Budget - Baseline

Total Capital and Other Reimbursements are projected to be \$17.5 million. Total Reimbursable labor expenses are \$13.7 million and non-labor expenses are \$3.8 million.

Impact on Funding

The 2021 November Forecast, the 2022 Final Proposed Budget and the Four-Year Financial Plan 2022-2025, which are presented in the attached tables, are consistent with the proposed MTA Financial Plan.

Recommendation:

It is recommended that the MTA Board adopt the 2021 November Forecast, the 2022 Final Proposed Budget, and the Four-Year Financial Plan for 2022-2025 for the MTA Inspector General.

Purpose:
To secure MTA Board adoption of the First Mutual Transportation Assurance Company's (FMTAC) 2021 November Forecast, 2022 Final Proposed Budget, and the Four-Year Financial Plan for 2022-2025.

Discussion:
FMTAC generates a net cash deficit of zero and has no impact on MTA cash balances. FMTAC cash reserves are separate and distinct from MTA and are necessary to maintain the appropriate capital and reserve levels pursuant to the State of New York Insurance guidelines.

The 2022 Final Proposed Budget, which is consistent with information presented to the Board in November 2021, provides sufficient resources to address the challenges related to insurance and risk management of the MTA. This is accomplished by maximizing the efficiency and flexibility of the insurance programs while minimizing costs to the MTA and its subsidiaries.

2021 November Forecast-Baseline
Total operating revenues are projected at \$24.0 million. Total operating expenses are projected to be \$26.2 million, resulting in a net deficit of \$2.2 million.

2022 Final Proposed Budget-Baseline
Total operating revenues are projected at \$24.1 million. Total operating expenses are projected to be \$36.9 million, resulting in a net deficit of \$12.9 million.

Impact of Funding:
The 2021 November Forecast, the 2022 Final Proposed Budget, and the Four-Year Financial Plan 2022-2025, which are presented in the attached tables, are consistent with the proposed MTA Financial Plan.

Recommendation:
It is recommended that the MTA Board adopt the 2021 November Forecast, the 2022 Final Proposed Budget, and the Four-Year Financial Plan for 2022-2025 for the MTA First Mutual Transportation Assurance Company.

Purpose

To secure MTA Board adoption of MTA New York City Transit’s 2021 November Forecast, 2022 Final Proposed Budget, and the Four-Year Financial Plan for 2022-2025.

Discussion

New York City Transit (NYCT) continues to emerge from the COVID-19 pandemic, and ridership has gradually increased in concert with the availability of vaccines and the region’s re-opening. Despite the improvement, NYCT’s financial outlook remains fragile, with current projections based on the midpoint between the McKinsey “best-case” and “worst-case” scenarios. The Financial Plan assumes that NYCT will only reach 87.5% of pre-pandemic ridership by the start of 2024, resulting in significantly less farebox revenue. This large reduction in farebox revenue makes the agency’s financial outlook precarious, which underlines the need for continued efforts to maximize efficiency and reduce costs. The November Plan reflects updates for actions taken as well as several revisions to initiatives to reflect current implementation timelines. NYCT projections do not include the estimated impacts of projected fare increases and MTA consolidated below-the-line adjustments, which are presented as part of MTA consolidated materials.

November Financial Plan Highlights are summarized as follows:

- Farebox revenue is projected to surpass the Mid-Year Forecast by \$124.6 million in 2021, due to favorable ridership and higher average fares, with minor decreases in the out-years that reflect lower paratransit revenue.
- COVID-19 preventative measures are revised lower by \$37.9 million in 2021, and \$73.8 million in subsequent years reflecting the restoration of overnight subway service with the elimination of auxiliary bus shuttle service and lower costs for fleet and station cleaning and disinfecting.
- Paratransit Service projections are revised lower by \$30.4 million in 2021 and about \$50 million annually in subsequent years reflecting a slower ridership return than previously projected.
- Health & Welfare expenses are projected to be lower by \$64.3 million over the plan period reflecting a higher trend in inflation offset by savings resulting from the recently approved medical benefits contract.

Baseline Ridership

The McKinsey midpoint projects ridership reaching 55.5% of the pre-pandemic level for subway and 62.0% for bus during the fourth quarter of 2021. Overall, 2021 ridership recovery, incorporating actuals through August and projections for the remainder of the year, is 44.1% for subway and 54.9% for bus. Subway and bus modes are projected to increase to 85.5% by fourth quarter 2022, before reaching the “new normal” level of 87.5% by the first quarter of 2024.

Paratransit ridership projections in prior plans had assumed a more rapid recovery to pre-pandemic levels than other modes, with total trips reaching 75% of pre-pandemic levels in 2021, and 100% in 2022. The actual return of ridership in 2021 has been notably slower than forecast, and as a result, paratransit ridership is now projected to reach 80% of the pre-pandemic level in fourth quarter 2021, 90% in 2022, and 100% in subsequent years.

Programmatic Initiatives

New Needs requests fund initiatives such as: the expansion of automated bus lane enforcement; the launch of an all-electric bus fleet testing program as Transit transitions to a fully zero-emissions fleet by 2040; the expansion of communications-based train control and facilities maintenance; and additional operational employee hiring to address higher employee absenteeism and ensure that scheduled service can be provided.

NYCT continues to manage its Budget Reduction Program (BRP), and also the significant Additional Savings Actions implemented in the 2021 February Financial Plan. The 2021 November Plan also includes several adjustments to savings actions previously implemented. These adjustments include the restoration of Bus Operator and Cleaner positions and additional overtime in support of Station Agent booth hours of operation and staffing, largely due to efforts to maintain service at 100% of the pre-pandemic level. Additionally, there are some adjustments to prior-year BRPs, including those related to the schedule for achieving timekeeping savings, and implementing booth staffing and lunch relief savings.

2021 November Forecast-Baseline

Total Non-Reimbursable revenues are projected at \$2.751 billion, including \$2.281 billion of farebox revenues. Total Non-Reimbursable expenses are projected to be \$8.596 billion, consisting of labor expenses of \$6.873 billion and non-labor expenses of \$1.723 billion. Non-cash depreciation expense is projected at \$2.110 billion, GASB 75 other post-employment benefit expenses are projected at \$1.232 billion, and GASB 68 pension expenses are projected as a credit of \$62.0 million. Projected Reimbursable expenses of \$1.082 billion are fully offset by capital reimbursements. Total baseline full-time and full-time equivalent positions are 47,480 including 42,733 Non-Reimbursable positions and 4,747 Reimbursable positions.

2022 Final Proposed Budget-Baseline

Total Non-Reimbursable revenues are projected at \$4.121 billion, including farebox revenues of \$3.603 billion. Total Non-reimbursable expenses are projected to be \$9.220 billion, consisting of labor expenses of \$7.112 billion and non-labor expenses of \$2.108 billion. Non-cash depreciation expense is projected at \$2.152 billion, GASB 75 other post-employment benefit expenses are projected at \$1.257 billion, and GASB 68 pension expenses are projected as a credit of \$63.3 million. Projected Reimbursable expenses of \$1.246 billion are fully offset by capital reimbursements. Total end-of-year positions are projected at 48,041 including 43,374 Non-Reimbursable positions and 4,667 Reimbursable positions.

Impact on Funding

The 2021 November Forecast, the 2022 Final Proposed Budget and the Four-Year Financial Plan for 2022-2025, which are presented in the attached tables, are consistent with the proposed MTA Financial Plan.

Recommendation

It is recommended that the MTA Board adopt the 2021 November Forecast, the 2022 Final Proposed Budget and the Four-Year Financial Plan for 2022-2025 for MTA New York City Transit and the related authorization to draw down Transit Adjudication Bureau (TAB) receipts and interest consistent with this Final Proposed Budget.

Purpose

To secure MTA Board adoption of MTA Bus Company's 2021 November Forecast, 2022 Final Proposed Budget, and the Four-Year Financial Plan for 2022-2025.

Discussion

The 2022 Final Proposed Budget, which is consistent with information presented to the Board in November 2021, provides sufficient funding to support MTA Bus Company's planned service levels, as well as MTA's commitment to provide safe, secure, reliable, and cost-efficient transportation service to the metropolitan New York region. The MTA Bus projections do not include the estimated impacts of projected fare increases and MTA consolidated below-the-line adjustments, which are presented as part of MTA consolidated materials. The MTA is reimbursed by the City of New York for the operating deficits of MTA Bus Company (MTABC).

The 2022 Final Proposed Budget includes funding for new and enhanced investments as follows:

Key Initiatives

- MTABC continues to emerge from the COVID-19 pandemic, and ridership has continued to gradually increase in concert with the availability of COVID vaccines and the region's re-opening. Farebox revenues are projected to increase in 2021 resulting from more favorable ridership projections than previously forecasted. Revenues in the outer years remain the same as the July Financial Plan.
- Revised estimates of the cost of COVID-19 preventative measures are expected to result in a projected decrease in expenses. This is due to the change in bus sanitizing frequency from twice per day by hand to once per day using electrostatic sprayers, which reduce cleaning time.
- Security Awareness Training - The Budget contains funding that enables MTABC to comply with newly issued Transportation Security Administration regulations that require the MTA to provide security training for certain security sensitive employees.
- MTABC continues to manage its program of Additional Savings Actions, which reduced reliance on outside consultants and contractors, reduced non-service-related expenses, and reduced overtime starting in 2020. These reductions were introduced in the 2021 February Financial Plan and provide savings throughout the Plan period.

- The 2022 Final Proposed Budget reflects the restoration of 30 Bus Operator positions to meet ridership demands, which is expected to reach a new normal level of 87.5% of pre-pandemic ridership in the first quarter of 2024.

2021 November Forecast - Baseline

Total Non-Reimbursable operating revenues are budgeted at \$151.8 million, including farebox revenues of \$132.9 million. Total Non-Reimbursable expenses before depreciation and GASB adjustments are budgeted to be \$879.0 million, consisting of labor expenses of \$623.5 million and non-labor expenses of \$255.5 million. Non-cash depreciation expense is projected at \$54.8 million, GASB 75 OPEB expense adjustment is projected at \$69.9 million and GASB 68 Pension expense adjustment is projected at \$50.4 million. Projected Reimbursable expenses of \$5.6 million are fully offset by capital reimbursements.

Total end-of-year positions are projected at 3,850 consisting of 3,812 non-reimbursable positions and 38 reimbursable positions.

2022 Final Proposed Budget - Baseline

Total Non-Reimbursable operating revenues are budgeted at \$198.7 million, including farebox revenues of \$179.0 million. Total Non-Reimbursable expenses before depreciation and GASB adjustments are budgeted to be \$923.7 million in 2022, consisting of labor expenses of \$657.5 million and non-labor expenses of \$266.1 million. Non-cash depreciation expense is projected at \$56.2 million, GASB 75 OPEB expense adjustment is projected at \$80.0 million and GASB 68 Pension expense adjustment is projected at \$54.9 million. Projected reimbursable expenses of \$5.8 million are fully offset by capital reimbursements.

Total end-of-year positions are projected at 4,010 consisting of 3,972 non-reimbursable positions and 38 reimbursable positions.

Impact on Funding

The 2021 November Forecast, the 2022 Final Proposed Budget, and the Four-Year Financial Plan for 2022-2025, which are presented in the attached tables, are consistent with the proposed MTA Financial Plan.

Recommendation

It is recommended that the MTA Board adopt the 2021 November Forecast, the 2022 Final Proposed Budget, and the Four-Year Financial Plan for 2022-2025 for MTA Bus Company.

Purpose

To secure MTA Board adoption of MTA Staten Island Railway’s 2021 November Forecast, 2022 Final Proposed Budget, and the Four-Year Financial Plan for 2022-2025.

Discussion

Staten Island Railway (SIR) has begun to show gradual emergence from the COVID-19 pandemic, and ridership has slowly increased in concert with the availability of vaccines and the region’s reopening. Despite the improvement, the SIR financial outlook remains fragile, with current projections based on the McKinsey “worst case” scenario. The Financial Plan assumes that SIR will only reach 83% of pre-pandemic ridership by the start of 2024, resulting in significantly less farebox revenue. This large reduction in farebox revenue underlines the need for continued efforts to maximize efficiency and reduce costs. The Plan includes the resources to maintain current service levels while upholding the MTA’s commitment to safety and security, and continued support of ongoing capital program work. The SIR projections do not include the estimated impacts of projected fare increases and MTA consolidated below-the-line adjustments, which are presented as part of MTA consolidated materials.

Operational Highlights:

- Farebox revenue is projected to exceed the Mid-Year Forecast by \$0.164 million in 2021 due to favorable ridership and higher average fares, and no changes for 2022 to 2025.
- Revised estimates of actual COVID-19 preventative measures result in a projected increase in expense of \$0.381 million in 2021 and \$0.150 million annually for 2022 to 2025, mainly due to higher cleaning costs.
- New Needs requests include: the retention of 20 positions for two years of continual support of mainline track tie replacement program; the provision of maintenance resources for the new Clifton Shop that replaced an antiquated facility that was severely damaged during SuperStorm Sandy; and one additional line supervisor to oversee repairs of safety related defects in the infrastructure division.
- The November Plan assumes the retention of 11 reimbursable positions in 2022 for weekend shutdowns, including work train operators, flagmen, and pilots for on-track equipment in support of contractors performing capital work.

2021 November Forecast-Baseline

Total Non-reimbursable revenues are projected at \$3.6 million, including farebox revenues of \$2.0 million. Total Non-Reimbursable expenses are projected to be \$70.3 million, consisting of labor expenses of \$53.2 million and non-labor expenses of \$17.1 million. Non-cash depreciation expense is projected at \$12.0 million, GASB 75 other post-employment benefit expenses are projected at \$3.7 million and GASB 68 pension expenses are projected at \$1.0 million. Projected Reimbursable expenses of \$7.7 million are fully offset by capital reimbursements. Total end-of-year positions are projected at 394, including 341 Non-Reimbursable positions and 53 Reimbursable positions.

2022 Final Proposed Budget-Baseline

Total Non-Reimbursable revenues are projected at \$7.1 million, including farebox revenues of \$4.5 million. Total Non-Reimbursable expenses are projected to be \$69.3 million, consisting of labor expenses of \$55.0 million and non-labor expenses of \$14.3 million. Non-cash depreciation expense is projected at \$12.0 million, GASB 75 other post-employment benefit expenses are projected at \$1.8 million, and GASB 68 pension expenses are projected at \$2.0 million. Projected Reimbursable expenses of \$7.8 million are fully offset by capital reimbursements. Total end-of-year positions are projected at 395, including 342 Non-Reimbursable positions and 53 Reimbursable positions.

Impact on Funding

The 2021 November Forecast, the 2022 Final Proposed Budget and the Four-Year Financial Plan for 2022-2025, which are presented in the attached tables, are consistent with the proposed MTA Financial Plan.

Recommendation

It is recommended that the MTA Board adopt the 2021 November Forecast, the 2022 Final Proposed Budget and the Four-Year Financial Plan for 2022-2025 for MTA Staten Island Railway.
